Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

DETAILED ACTION

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 4-8, 14-18, 25, 27-29 and 31 are rejected under 35 U.S.C. 102(b) as being anticipated by EP 0028772.

There is disclosed in the European reference a beverage making machine 13 having a housing 15, 16; a funnel 22; and a blocking device, comprising: a first engager including a bracket 59b displaceably retained on the housing; a second engager 55 including a portion on the funnel for engagement with the bracket; the bracket including a first extension 59a and a second extension 59a, the first and second extensions being spaced apart and defining a gap there between which is sized and dimensioned for engagement with a portion of the funnel (second engager).

In regards to the recitation of "pivotably" retained, applicant has provided no designated point or means about which the bracket is pivoted. The bracket 59b is pivoted or moved, about a central point, in an upward and downward motion.

Allowable Subject Matter

Claim 30 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 9, 10, 19, 20, 33-40, 42, 43 and 45-49 are allowed.

Response to Arguments

Applicant's arguments filed 02 July 2010 have been fully considered but they are not persuasive. Applicant argues that the bracket or hooks of EP 0028772 are not pivotably retained on the housing. It was noted in the rejection above that applicant has failed to define a pivot point, pivot motion or a means for pivoting the claimed bracket.

Thus, the motion and location of the bracket meets the claimed "pivotably retained" limitation of the claim.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
